3. About the Somerset Global Fund

Investment Objective

The Fund's objective is to preserve and grow investor capital over the long term.

Structure

The Fund is an unlisted and unregistered unit trust.

Why invest in the Fund?

The Somerset Global Fund aims to primarily invest in a portfolio of high-quality global securities, providing investors with exposure to attractive risk adjusted returns over the long term.

Somerset Partners is an active manager of global equities, focusing on quality businesses that Somerset believe are undervalued relative to their fundamental worth.

Somerset's investment approach places a great deal of emphasis on seeking to invest in high quality businesses. The characteristics Somerset looks for in a portfolio company include:

1. A resilient business with relatively predictable cash flows
2. A formidable competitive position
3. Opportunities for long term revenue growth
4. Leading profit margins within its industry or niche
5. Strong free cash flow generation
6. High returns on capital
7. A conservative balance sheet
8. Capable management with an owner operator mindset, focused on long-term shareholder value

Somerset believe the primary advantage of focusing on exceptional businesses is their ability to grow profits over time, creating a long-term tailwind to investment returns that mediocre businesses are unable to match. Further, by avoiding businesses with characteristics such as unpredictable earnings, weak competitive positions, low returns on capital or highly leveraged balance sheets, Somerset aim to minimise many of the downside risks associated with investing in public equities. Somerset believe that over the long term, their emphasis on quality will enhance the Fund's chances of achieving its investment objective.

The companies Somerset invests in typically provide products and services that their customers use on a regular basis. Their competitive advantages stem from a range of factors, such as economies of scale, network effects, unique resources or strong brands. These companies often operate in industries that exhibit monopoly, duopoly or oligopoly characteristics.

Somerset often seek to invest when an outstanding company has experienced a short-term setback, and its share price has fallen temporarily out of favour with the market.

Somerset is a long term investor and so typically takes a 5-year horizon when investing in a stock. As long as the investment case remains valid, Somerset aims to hold positions for many years, to allow its investments to compound. In this light, the Fund is best suited to investors with a similar long-term investment outlook.

The Fund does not track an index and is not required to be fully invested in equities. If Somerset cannot identify sufficiently attractive opportunities in the stock market, or Somerset believe there is a risk of a major downturn in the economy or stock market, the Fund may hold cash, corporate bonds, or other approved securities. The Fund may also invest in hedges (including put options) to mitigate downside risks.

Finally, the Fund follows a long-only investment approach and does not engage in short selling or use margin leverage.

Investment Universe

The Somerset Global Fund invests globally, as many of the world's best businesses are listed outside of Australia. In line with our objective to preserve capital, Somerset prefers investing in democratic countries with strong institutions and robust rule of law.

While the Fund is primarily focused on public equities, it has a broad mandate, allowing it to invest across various asset classes, including:

- Australian and international listed equities
- Cash
- Corporate Bonds
- Fixed Interest
- Derivative securities

Somerset believe the flexibility of our mandate is a key competitive advantage for the Fund, enabling us to only invest in opportunities where Somerset believes the risk-to-reward ratio is attractive. While Somerset does not expect to regularly hold or trade derivative securities, Somerset believes they can be a useful tool for mitigating downside risks.

Portfolio

Somerset expect the portfolio to typically hold 25 to 40 different securities. All portfolio investments are continually reviewed and may change at any time in response to Somerset Partners' assessment of changing economic, market or other factors.

Investment Parameters

The Somerset Global Fund has established investment parameters to manage risk. When purchasing a security, the maximum allocation for any individual stock position is 10% of the portfolio. While Somerset believes in letting winning investments "run," Somerset aims to avoid allowing any position to become so large that it unbalances the overall portfolio. If a security's value increases as a percentage of the portfolio, its maximum size will be capped at 20%. Further, for an individual stock, the maximum position size will be capped at 15%.

Somerset places a significant emphasis on portfolio liquidity. While Somerset is a long-term investor, Somerset values the ability to exit positions quickly if needed. Therefore, Somerset typically invests in mid- to large-cap stocks and other securities that trade in highly liquid markets. To maintain liquidity, Somerset aims not to hold more than 1% of any company's outstanding shares.

4. Principal risks

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short-term risk. You should consider the key risks below when deciding whether to invest in the Fund and consider these risks in light of your risk profile. Your risk profile will vary depending on a range of factors, including your age, the investment time frame (how long you wish to invest for), your other investments or assets and your risk tolerance.

The Trustee and the Investment Manager do not guarantee the liquidity of the Fund's investments, repayment of capital or any rate of return for the Fund's investment performance. The value of the Fund's investments will vary. Returns are not guaranteed, and you may lose money by investing in the Fund. The level of returns will vary, and future returns may differ from past returns. Laws affecting managed investment schemes may change in the future. The structure and administration of the Fund is also subject to change.

In addition, we do not offer advice that takes into account your personal financial situation, including whether the Fund is suitable for your circumstances. If you require personal financial or taxation advice, you should contact a licensed financial advisor and/or taxation advisor.

Key Risks

Company specific risk: Investments by the Fund in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks may impact the value of the securities of that company. These risks include factors such as changes in management, actions of competitors and regulators, changes in technology and market trends.

Concentration risk: As the Fund will typically hold a concentrated portfolio of between 25 and 40 securities, returns of the Fund may be dependent upon the performance of individual companies. The concentrated exposure may lead to increased volatility in the NAV per Unit and increased risk of poor performance.

Counterparty risk: There is a risk that the Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in cash and derivatives transactions. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations.

Liquidity of investments risk: Whilst the Fund is exposed to listed securities which are generally considered to be liquid investments, under extreme market conditions, there is a risk that such investments cannot be readily converted into cash or at an appropriate price. In such circumstances, the Fund may be unable to liquidate sufficient assets to meet its obligations, including payment of withdrawals, within required timeframes or it may be required to sell assets at a substantial loss in order to do so.

Market risk: There is a risk that the market price of the Fund's assets will fluctuate. This may be as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, pandemic outbreaks, environmental and technological issues.

Operational risk: Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Fund may require us, the Custodian, Unit Registry, administrator, the agent appointed by the Responsible Entity to provide liquidity to investors on the Securities Exchange, and other service providers to implement sophisticated systems and procedures. Some of these systems

and procedures are specific to the operation of the Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Fund's operation and result in a decrease in the value of Units.

Performance risk: There is a risk that the Fund may not achieve its investment objective.

Personnel risk: The skill and performance of the Investment Manager can have a significant impact (both directly and indirectly) on the investment returns of the Fund. Changes in key personnel and resources of the Investment Manager may also have a material impact on investment returns of the Fund.

Currency risk: The Fund expects to allocate up to [insert] in assets located or traded on exchanges outside Australia. As the Fund's investments in international assets will typically be unhedged, a rise in the Australian dollar relative to other currencies will negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. It is not the Responsible Entity's intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.

Derivatives risk: The value of a derivative is derived from the value of an underlying asset and can be highly volatile. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of the derivative in line with movements in the value of the underlying asset, potential liquidity of the derivative and counterparty credit risk.

Distribution policy risk: Under the distribution policy for the Fund, there may be circumstances where the distributions received by investors in cash may be insufficient to cover the tax payable on the income of the Fund attributable to the investor.

Emerging market risk: The Fund may invest in the securities of issuers domiciled in foreign jurisdictions, including some countries classified as emerging market countries. As a result, the Fund may be subject to adverse governmental, economic, legal and securities market risks associated with individual foreign markets. Specific risks may include unexpected changes in government or regulatory policy which could reduce trading liquidity and/or increase price volatility of securities, fewer securities holder rights and less protection of property rights. Trading, settlement and custody practices may differ from developed markets and this may result in lower liquidity and counterparty credit risk.

Fund risk: Fund risk refers to specific risks associated with the Fund, such as termination and changes to fees and expenses. The performance of the Fund or the security of an investor's capital is not guaranteed. There is no guarantee that the investment strategy of the Fund will be managed successfully, or that the Fund will meet its investment objectives. Failure to do so could negatively impact the performance of the Fund. An investment in the Fund is governed by the terms of the Trust Deed and this IM, each as amended from time to time. The Trustee may elect, in accordance with the Trust Deed and the Corporations Act, to terminate the Fund for any reason.

Pooled investment scheme risk: The Fund is a managed investment scheme that pools investors' capital to acquire assets. An investor's voting power will change with the number and value of Units on issue in the Fund and this could result in that investor's voting power being proportionally diluted. Investors will be assessed for tax on their share of net income and net capital gains generated by the Fund that is attributed to them under the AMIT rules. The net income and net capital gains may be a result of the activities of other unitholders, such as redemptions of Units. Inflows and outflows may also affect the taxable income attributed to an investor during a financial year.

Withholding tax reclaim risk: The Fund may file claims to recover excess foreign withholding taxes on dividend and interest income (if any) withheld by issuers from certain countries and capital gains on the disposition of stocks or securities where such withholding tax reclaim is possible. Whether or when the Fund will receive a withholding tax refund is within the control of the tax authorities in such countries and is subject to changes in

tax regulation or approach in the respective foreign country. Subsequently, if the likelihood of recovery materially decreases, accruals for the Fund's net asset value for such refunds may be written down partially or in full.

This is not an exhaustive list and there may be additional risks which arise.

5. Investing in the Fund

Authorised Investments

The Fund can only invest in assets permissible under the Trust Deed.

Valuations

The Net Asset Value of the Fund will be determined at the end of each month. The value of listed securities will be the closing price on the last business day of each month. Applications may only be made by a wholesale client as defined under the Corporations Act.

The minimum initial application for units is \$500,000. Equity Trustees reserves the right to accept lesser amounts.

The price at which units are acquired is determined in accordance with the Trust Deed ("Application Price"). The Application Price on a Business Day is, in general terms, equal to the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Buy Spread"). At the date of this IM, the Buy Spread is 0.20%. The Application Price will vary as the market value of assets in the Fund rises or falls.

Application cut-off times

Applications to the Fund must be received by the Trustee prior to 2:00 pm Sydney time three Business Days before the end of each calendar month, and/or such other Business Day or Business Days as may be determined by the Trustee in its discretion from time to time; provided that each such date will fall at least three Business Days prior to a calendar month end date.

Terms and conditions for applications

Under the Anti-Money Laundering and Counter- Terrorism Financing Act 2006 and the Foreign Account Tax Compliance Act (FATCA) applications made without providing all the information and supporting identification documentation requested on the Application Form cannot be processed until all the necessary information has been provided. As a result, delays in processing your application may occur.

Equity Trustees reserves the right to refuse any application without giving a reason. If for any reason Equity Trustees or the Administrator refuses or is unable to process your application to invest in the Fund, the Administrator will return your application money to you, subject to regulatory considerations, less any taxes or bank fees in connection with the application. You will not be entitled to any interest on your application money in this circumstance.

Withdrawals

Equity Trustees must be notified in writing by giving at least 3 business days' notice of a withdrawal. All withdrawals will be processed using the month end unit price. Withdrawals are processed on the last Business Day of each month using the month end Unit Price. Withdrawal requests should be sent to:

Apex Fund Services
GPO Box 4968
Sydney NSW 2000
Or email it to: registry@apexgroup.com

The minimum withdrawal is \$10,000, which may in certain circumstances be waived by the Trustee (or the total of a Unitholder's entire holding, if less).

The Trust Deed allows Equity Trustees to reject withdrawal requests and to delay withdrawals or calculation of the Withdrawal Price, in its discretion. Equity Trustees is not required to satisfy a withdrawal request. The price at which units are withdrawn is determined in accordance with the Trust Deed ("Withdrawal Price"). The Withdrawal Price is calculated to equal the NAV of the Fund, divided by the number of units on issue and adjusted for transaction costs ("Sell Spread"). At the date of this IM, the Sell Spread is 0.20%. The Withdrawal Price will vary as the market value of assets in the Fund rises or falls.

Equity Trustees reserves the right to fully redeem your investment if your investment balance in the Fund falls below an amount determined by the Trustee as a result of processing your withdrawal request. Equity Trustees can deny a withdrawal request in certain circumstances, including where accepting the request is not in the best interests of investors in the Fund or where the Fund is not liquid (as defined in the Corporations Act).

If the Trustee accepts a withdrawal request, the Trustee is required pay the net proceeds of withdrawal within 90 days of the date that the Trustee accepts the request. The Trustee may extend this period by up to 21 days if it considers that it is in the best interests of members to do so.

The Trustee may also decide to defer withdrawal payments after a request is accepted or suspend withdrawals from the Fund if it is unable to process redemption requests or make withdrawal payments due to one or more circumstances outside its control, including extreme price fluctuations or uncertainty in the market for the Fund's investments, or restricted or suspended trading on markets in relation to investments of the Fund.

Withdrawal cut-off times

Requests to withdraw from the Fund must be received by the Trustee prior to 2:00 pm Sydney time three Business Days before the end of each calendar month, and/or such other Business Day or Business Days as may be determined by the Trustee in its discretion from time to time; provided that each such date will fall at least three Business Days prior to a calendar month end date.

We reserve the right to accept or reject withdrawal requests in whole or in part at our discretion. We have the discretion to delay processing withdrawal requests where we believe this to be in the best interest of the Fund's investors.

Income Distributions

An investor's share of any distributable income is calculated in accordance with the Trust Deed and is generally based on the number of units held by the investor at the end of the distribution period.

The Fund usually distributes income annually at the end of June. Distributions are calculated on the last day of the period and are normally paid to investors as soon as practicable after the distribution calculation date.

Investors in the Fund can indicate a preference to have their distribution:

- reinvested back into the Fund; or
- directly credited to their nominated Australian domiciled bank account.

Unitholders who do not indicate a preference will have their distributions automatically reinvested. Applications for reinvestment will be taken to be received prior to the next valuation time after the relevant distribution period. There is no Buy Spread on distributions that are reinvested.

In some circumstances, an investor's withdrawal proceeds may be taken to include a component of distributable income.

Reporting

Unitholders will receive the NAV of the Fund on a monthly basis, monthly performance reviews and yearly audited reports.

6. Fees and other costs

Management Fee

The Management Fees are 1.20% p.a. (inclusive of GST and RITC) of the net asset value of the Fund and are reflected in the unit price of the Fund.

All other ordinary expenses related to the establishment and operation of the Fund, including custody fees and auditing and tax fees, are separately recovered from the Fund.

Performance Fee

In addition to the Management Fees, the Investment Manager is entitled to a performance fee of 15% p.a. (plus GST) of outperformance against the Benchmark. The Benchmark is the MSCI Net World Index in Australian Dollars.

The Performance Fee is calculated and accrued monthly and is payable semi-annually at the end of June and December.

The Performance Fee is subject to a high watermark, such that a performance fee is only payable on any new net gains from the Fund (and not payable on the recovery of losses from the Fund).

Somerset may, from time to time, determine to waive its right to receive payment of part (or all) of the amount of any performance fee that is otherwise payable.

Further information regarding fees and other costs

What do the management fees pay for?

The management fees include Trustee fees, investment management fees, administration fees and bank fees. The management fees are calculated and accrued monthly based on the NAV of the Fund. The accrued fees are paid in arrears from the assets of the Fund within 14 days of the end of each month. The management fees reduce the NAV of the Fund and are reflected in the unit price.

All other ordinary expenses related to the establishment and operation of the Fund, including custody fees and auditing and tax fees, are separately recovered from the Fund outside of the management fees.

Transaction and other costs

In managing the assets of the Fund, the Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and applicable stamp duty when assets are bought and

sold. This generally happens when the assets of a fund are changed in connection with day-to-day trading or when there are applications or withdrawals which cause net cash flows into or out of a fund. Such

All government taxes such as stamp duty and GST will be deducted from the Fund as appropriate. RITCs will also be claimed by the Fund where appropriate to reduce the cost of GST to the Fund.

Buy/Sell Spread

The Buy/Sell Spread reflects the estimated transaction costs associated with buying and selling the assets of the Fund when Unitholders invest in, or redeem from, the Fund. The Buy/Sell Spread is an additional cost to the Unitholder but is included in the unit price and incurred when a Unitholder invests in or redeems units from the Fund and is not charged as an additional fee.

The Buy/Sell Spread is paid into the Fund and not retained by Equity Trustees or the Investment Manager. At the date of this IM, the Buy/Sell Spread for the Fund is 0.20%/-0.20%.

Abnormal expenses

In addition to the management fees and ordinary expense recoveries, the Trustee may additionally recover abnormal expenses (such as the costs of Unitholders' meetings, legal advice/proceedings and other irregular expenses). The Trust Deed does not place any limit on the amount of the abnormal expenses that can be paid from the Fund.

Can the fees change?

All fees can change without Unitholder consent, subject to the maximum fee amounts specified in the Trust Deed of the Fund. Reasons might include changing economic conditions and changes in regulation. Equity Trustees have the right to recover all proper expenses incurred in managing the Fund and as such these expenses may increase or decrease accordingly. We will notify Unitholders of any changes to fees and expenses in accordance with the law and the Trust Deed. The Trust Deed in some circumstances defines the maximum fees that can be charged for some fees described in this IM.

7. Other Important Information

Cooling off period

No cooling off period applies to units offered under this IM.

Unitholder's liability

The Trust Deed for the Fund provides that unless there is a separate agreement with a Unitholder, no Unitholder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. Therefore, it is expected that Unitholders will not be under any obligation if a deficiency in the assets of the Fund was to occur. However, this view has not been fully tested and so it is not possible to give an absolute assurance that a Unitholder's liability will be limited in all circumstances.

In general, the liability of a Unitholder is limited to the amount (if any) which remains unpaid in relation to their subscription for units and certain amounts in respect of tax. The Trustee is permitted to deduct certain amounts owed to the Trustee from amounts payable to Unitholders.

Non-listing of units

The units of the Fund are not listed on any stock exchange and no application will be made to list the units of the Fund on any stock exchange.

Termination of the Fund

The Trustee may resolve at any time to terminate, liquidate and wind up the Fund in accordance with the Fund's Trust Deed. The Fund may otherwise terminate if required by law. A notice will be provided to Unitholders advising of the Fund's termination. Upon termination and after conversion of Fund assets into cash and payment of, or provision for, all costs and liabilities (actual and anticipated), the net proceeds will be distributed pro-rata amongst all Unitholders according to the number of units they hold in the Fund.

Joint Account Operation

For joint accounts, unless indicated to the contrary on the Application Form, each signatory must sign withdrawal requests. Please ensure all signatories sign the declaration in the Application Form. Joint accounts will be held as joint tenants unless we are advised to the contrary in writing.

Appointment of Authorised Nominee to Operate Account

You can appoint a person, partnership or company as your authorised signatory. To do so, please nominate them on the initial Application Form and have them sign the relevant sections. If a company is appointed, the powers extend to any director and officer of the company. If a partnership is appointed, the powers extend to all partners. Such appointments will only be cancelled or changed once we receive written instructions from you to do so.

Once appointed, your authorised signatory has full access to operate your investment account for and on your behalf. This includes the following:

- making additional investments;
- requesting income distribution instructions to be changed;
- withdrawing all or part of your investment;
- changing bank account details;
- enquiring and obtaining copies of the status of your investment; and
- having online account access to your investment.

If you do appoint an authorised signatory:

- you are bound by their acts;
- you release, discharge and indemnify us from and against any losses, liabilities, actions, proceedings, account claims and demands arising from instructions received from your authorised representatives; and
- you agree that any instructions received from your authorised representative shall be complete satisfaction of our obligations, even if the instructions were made without your knowledge or authority.

Electronic Instructions

If an investor instructs Equity Trustees by electronic means, such as facsimile, email or via the internet the investor releases Equity Trustees from and indemnifies Equity Trustees against, all losses and liabilities arising from any payment or action Equity Trustees makes based on any instruction (even if not genuine):

- that Equity Trustees receives by an electronic communication bearing the investor's investor code; and
- which appears to indicate to Equity Trustees that the communication has been provided by the investor (for example, it has a signature which is apparently the investor's or an authorised signatory's or it has an email address which is apparently the investor's).

The investor agrees that neither the investor nor anyone claiming through the investor has any claim against Equity Trustees or the Fund in relation to such payments or actions.

There is a risk that a fraudulent withdrawal request can be made by someone who has access to an investor's investor code and a copy of their signature or email address. Please take care.

Trust Deed of the Fund

You will be issued units in the Fund when you invest. Each unit represents an equal undivided fractional beneficial interest in the assets of the Fund as a whole subject to liabilities, but does not give you an interest in any particular property of the Fund.

Equity Trustees' responsibilities and obligations, as the Trustee of the Fund, are governed by the Trust Deed as well as the Corporations Act and general trust law. The Trust Deed contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both Equity Trustees, as the Trustee of the Fund, and investors. Equity Trustees is also subject to obligations under the Corporations Act. Some of the provisions of the Trust Deed are discussed elsewhere in this IM.

Other provisions relate to an investor's rights under the Trust Deed, and include:

- an investor's right to share in any Fund income, and how we calculate it;
- what you are entitled to receive when you withdraw or if the Fund is wound up;
- an investor's right to withdraw from the Fund - subject to the times when we can cease processing withdrawals, such as if there is extreme price fluctuation or uncertainty in the market for assets of the Fund;
- the nature of the units - identical rights attach to all units; and
- an investor's rights to attend and vote at meetings – these provisions are mainly detailed in the Trust Deed.

There are also provisions governing our powers and duties, including:

- how we calculate unit prices, the maximum amount of fees we can charge and expenses we can recover;

- when we can amend the Trust Deed
- when we can retire as the Trustee of the Fund;
- when we can be removed as the Trustee of the Fund - which is when required by law; and
- our broad powers to invest, borrow and generally manage the Fund.

The Trust Deed also deals with our liabilities in relation to the Fund and when we can be reimbursed out of the Fund's assets.

For example:

- we are not liable for acting in reliance and good faith on professional advice;
- we are not liable for any loss unless we fail to act in good faith or we act negligently; and
- we can be reimbursed for any liabilities we incur in connection with the proper performance of our powers and duties in respect of the Fund.

As mentioned above, Equity Trustees' responsibilities and obligations as the Trustee of the Fund are governed by the Trust Deed of the Fund, and general trust law. The obligations require that we:

- act in the best interests of investors and, if there is a conflict between investors' interests and our own, give priority to investors;
- ensure the property of the Fund is clearly identified, held separately from other funds and our assets, and is valued regularly;
- ensure payments from the Fund's property are made in accordance with the Trust Deed and the Corporations Act; and
- report to ASIC any breach of the Corporations Act in relation to the Fund which has had, or is likely to have, a materially adverse effect on investors' interests.

Copies of the Trust Deed are available, free of charge, on request from Equity Trustees.

Information on underlying investments

Information regarding the underlying investments of the Fund will be provided to a Unitholder in the Fund on request, to the extent Equity Trustees is satisfied that such information is required to enable the Unitholder to comply with its statutory reporting obligations. This information will be supplied within a reasonable timeframe having regard to these obligations.

Foreign Account Tax Compliance Act ("FATCA")

In April 2014, the Australian Government signed an intergovernmental agreement ("IGA") with the United States of America ("U.S."), which requires all Australian financial institutions to comply with the FATCA Act enacted by the U.S. in 2010.

Under FATCA, Australian financial institutions are required to collect and review their information to identify U.S. residents that invest in assets through non-U.S. entities. This information is reported to the Australian Taxation Office ("ATO"). The ATO may then pass that information onto the U.S. Internal Revenue Service.

In order to comply with the FATCA obligations, we may request certain information from you. Failure to comply with FATCA obligations may result in the Fund, to the extent relevant, being subject to a 30% withholding tax on payment of U.S. income or gross proceeds from the sale of certain U.S. investments. If the

Fund suffers any amount of FATCA withholding and is unable to obtain a refund for the amounts withheld, we will not be required to compensate Unitholders for any such withholding and the effect of the amounts withheld will be reflected in the returns of the Fund.

Common Reporting Standard ("CRS")

The CRS is a standardised set of rules developed by the Organisation of Economic Co-operation and Development that requires certain financial institutions resident in a participating jurisdiction to document and identify reportable accounts and implement due diligence procedures. These financial institutions will also be required to report certain information on reportable accounts to their relevant local tax authorities.

Australia signed the CRS Multilateral Competent Authority Agreement and has enacted provisions within the domestic tax legislation to implement CRS in Australia. Australian financial institutions need to document and identify reportable accounts, implement due diligence procedures and report certain information with respect to reportable accounts to the ATO. The ATO may then exchange this information with foreign tax authorities in the relevant signatory countries.

In order to comply with the CRS obligations, we may request certain information from you. Unlike FATCA, there is no withholding tax that is applicable under CRS. However, penalties may apply for failing to comply with the CRS obligations.

Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")

Australia's AML/CTF laws require Equity Trustees to adopt and maintain a written AML/CTF Program. A fundamental part of the AML/CTF Program is that Equity Trustees must hold up-to-date information about investors (including beneficial owner information) in the Fund.

To meet this legal requirement, we need to collect certain identification information (including beneficial owner information) and documentation ("KYC Documents") from new investors. Existing investors may also be asked to provide KYC Documents as part of an ongoing customer due diligence/verification process to comply with AML/CTF laws. If applicants or investors do not provide the applicable KYC Documents when requested, Equity Trustees may be unable to process an application, or may be unable to provide products or services to existing investors until such time as the information is provided.

In order to comply with AML/CTF Laws, Equity Trustees may also disclose information including your personal information that it holds about the applicant, an investor, or any beneficial owner, to its related bodies corporate or service providers, or relevant regulators of AML/CTF Laws (whether inside or outside Australia). Equity Trustees may be prohibited by law from informing applicants or investors that such reporting has occurred.

Equity Trustees shall not be liable to applicants or investors for any loss you may suffer because of compliance with the AML/CTF laws.
